

# A Wyoming Welcome :60s

CHEADLE: Hello CCLers and welcome to the California Regional Conference.

CHEADLE: California is essentially its own CCL country.

CHEADLE: It contains 15% of our members.

CHEADLE: 31% of The Energy Innovation Act's cosponsors.

CHEADLE: And 100% of our celebrity talent.

CHEADLE: So you might be thinking "What more can a Californian do?". "We're carrying the country!" "How did we get Don Cheadle?"

*ALT: So you might be thinking "What more can a Californian do?". "We're carrying the country!" "Is Don Cheadle reading my mind?"*

CHEADLE: But actually there is one more thing you can do as a Californian.

CHEADLE: And that is to become a Wyomingon.

CHEADLE: With an influx of 3 or more CCLers, we can flip the state to climate action.

CHEADLE: Giving us the same number of Senators as California, with 1/68th of the population.

CHEADLE: And you'll love exploring the beauties of Yellowstone and Seasonal Affective Disorder.

CHEADLE: Now if you'd rather NOT move to Wyoming, that's okay.

CHEADLE: Unnamed events have made this the best year to pass national climate legislation, no matter where you live.

CHEADLE: We need our best CCLers on their best game, putting the best plan forward to Washington.

CHEADLE: And we need to move fast.

CHEADLE: So California, suit up.

*ALT: So we're bringing in the big guns. (pauses) Which should be regulated!*

SUPER: Welcome to the California Regional Conference
